

Lapoint Packaging is pleased to introduce our all-new single-use liquid IBC. Our pop-up style totes offer an alternative to traditional corrugated totes, rental programs and bottle-in-cage. Proudly engineered and built in the USA.

- Featuring a pre-assembled fill-portal clip down cover. Simply drop in the cassetted liner, place the cover, and fill through our easy-access portal
- Woven recyclable PE exterior sheds splatters, is moisture and UV resistant and can be cleaned without damaging the core
- Pop-up composite body requires no additional assembly and takes only seconds to prepare for filling
- Move directly to your fill line up to 17 units at a time in a single stack - no pre-staging required
- Our direct-contact liquid liners are FDA/Kosher/Halal approved and IMS certified
- Compatible with automated filling equipment
- Available with or without bottom discharge valve for liquids or dry ingredients

LP ORCA containers follow our hallmark pop-up design, can be stacked when filled, and are manufactured from highly renewable and recyclable components.

Volume:	275 G / 1040 L
Weight Cap:	2400 lbs / 1089 kg
Pallet Footprint:	48 x 40 in / 1220 x 1016 mm
Container Tare Weight:	63 lbs / 29 kg
Tare Weight with Cover:	67 lbs / 31 kg
Truckload Quantity:	374 units
Standard Liner:	Food Safe; 2x2; 3-ply; LLPDE w/ crown cutter (additional options available)

### SuCore Construction for a Greener Footprint

The LP Liquid Tote gets its strength from an all-natural, highly renewable sugarcane byproduct.

Our unique interior SuCore panels provide superior strength, while staying lighter and greener than traditional bulk liquid packaging.

Our lightest offering, these well-positioned containers are the perfect solution for lighter, ambient temperature liquids, and/or applications where high stacking (4) is not required.

Volume:	275 G / 1040 L
Weight Cap:	2400 lbs / 1089 kg
Pallet Footprint:	48 x 40 in / 1220 x 1016 mm
Container Tare Weight:	62 lbs / 28 kg
Tare Weight with Cover:	66 lbs / 30 kg
Truckload Quantity:	374 units

A whale of a tote, the MOBI is capable of handling your high viscous, heavy liquids and/or warm fill applications. Heavy-duty MOBI containers can be stacked up to 4-high.

Volume:	275 G / 1040 L
Weight Cap:	2800 lbs / 1270 kg
Pallet Footprint:	48 x 40 in / 1220 x 1016 mm
Container Tare Weight:	65 lbs / 29 kg
Tare Weight with Cover:	70 lbs / 32 kg
Truckload Quantity:	374 units

LP Liquid Totes are also available in 110 and 220 gallon. See your sales rep for additional information.
